

Tritex Conveyor Strip

Technical Information Sheet

Stock Code PEPX66200KCF15

A resin toughened extra durable heat resistant needlefelt pad, designed to minimise damage to aluminium profiles during transportation immediately after the extrusion press. The pad is easy to fit and has a high wear resistance. Gives a long service life at elevated temperatures.

APPLICATION	Tritex strips for walking beams and slat conveyor for aluminium extrusion run out tables
COMPOSITION	Needlefelt, comprised of 70% para-aramid fibre, 30% pre-oxidised pan fibres.
OPERATING TEMPERATURE	Can be operated at up to 550°C
NEEDLEFELT PARAMETERS	15 mm thick - 6200 g/m ²
AVAILABLE SIZES	On request
RESIN HARDENING	All Tritex strips are available impregnated with a specially formulated resin-hardening system increasing the life and durability of the strip.
